KDU JOURNAL OF MULTIDISCIPLINARY STUDIES (KJMS)

AUTHOR GUIDELINES FOR MANUSCRIPT SUBMISSION

Read the guidelines below in preparing the manuscript in the live template given in the Journal website. Download the live electronic template from the website to prepare the manuscript which has already specified different components of the manuscript [title, text, heads, etc.]. Do not change the characters, fonts, symbols etc in the given live format when preparing the manuscript.

GENERAL INFORMATION

All manuscripts must be in English. The preferred spelling of the manuscript is British English. Additional information on formatting and style issues can be obtained from the KJMS style guide, posted online at: http://www.kdu.ac.lk/kjms

All papers in KJMS are edited electronically. Authors have to register in KJMS website for online submission of the journal papers. Detailed submission guidelines can be found on the KJMS website and authors are responsible for understanding these guidelines before submitting their manuscripts. For further information please refer to http://www.kdu.ac.lk/kjms

Prior to acceptance of the paper after the reviewers comments, authors have to submit the Electronic Author Declaration (EAD) template posted online in the KJMS web site in order to publish the paper in KJMS.

UNITS

Always use the International System units (SI) as primary units and English units (non metric units) as secondary units (in parentheses). Avoid combining SI and centimeter–gram–second system of units (CGS) which is a variant of the metric system units. Use zero before the decimal points.

EQUATIONS

Use symbol fonts in typing the equations. Label the equations (if any) consecutively and label the symbols used in the equations.
Clearly indicate the relevant positions of the equations in the manuscript.

TITLE PAGE

The title of the paper should be concise, informative and meaningful. Please avoid the use of long systemic names and non-standard abbreviations, acronyms or symbols in the title.

AUTHORS AND ADDRESSES

If the publication is from several authors, list the names of all the authors first, followed by their full postal addresses. Use superscript numeric identifiers to link the authors with their addresses. If there is a change of the current address of an author where the work was carried out, give details in a footnote. Include email addresses on the title page. Indicate the email address of corresponding author at all stages of refereeing, publication and at the post-publication stage.

ABSTRACT

Abstract should consist of concise information of the content of the article and shall be informative, accessible and state the main results obtained.

It shall be a summary of the research findings with objectives, a brief methodology, major findings and conclusions and shall not contain table numbers, figure numbers, references or equations and shall not exceed 300 words.

KEYWORDS

Keywords should appear immediately after the abstract, and provide a maximum of 6 separated by a comma.

INTRODUCTION

Introduction shall be concise describing the nature of the research problem concerned with its background. All relevant references shall be cited and all the highly specialized terms should be expanded indicating all abbreviations used in the article.

METHODOLOGY

The methods used in the research shall be described in terms of qualitative or quantitative techniques or otherwise.

The methodology has to be described clearly providing sufficient details of the research design, simulation techniques, statistical tests or analyses carried out to generate the results so as to allow the methodology to be repeated by other researchers.

RESULTS

Describe the details of the major findings and the outcomes of the study in the results section. Use tables to improve clarity and express results using graphs, statistical diagrams wherever relevant.

TABLLES

Submit the tables of the publication as editable text and not as images. Incorporate the tables in the relevant places of the body text. Table shall be numbered consecutively in accordance with their appearance. The table title shall appear on the top of the table with any explanatory captions below the title. Ensure that the data presented in tables do not duplicate results described elsewhere in the body text.

FIGURES

Figure title has to appear at the bottom of the figure. All Figures including maps, photographs and plates shall be numbered in the relevant sequence and their title has to appear at the bottom.

Figures, graphics, plates, photographs and maps shall have approximately 300dpi with embedded fonts and have to be inserted in the relevant place of the text.

DISCUSSION

This section shall include the discussion of the significance of results and compare the findings of previous researchers using relevant references.

CONCLUSION

Conclusions drawn from the research should be summarized with recommendations for future research.

APPENDICES

If it is needed, the appendices shall appear before the Acknowledgements. If there are multiple Appendices they have to be labeled as Appendix A, B, C and D etc.

ACKNOWLEDGEMENTS

The author/s have to incorporate the financial assistance received for the research, and also any intellectual support received during the work etc. under this section.

REFERENCES

Ensure that every reference cited in the text is also present in the reference list. Any references cited in the abstract also must be given in full.

If these references are included in the reference list they should follow the latest edition of Harvard referencing style which is the standard reference style of the journal.

Citation of a reference as 'in press' implies that the item has been accepted for publication.

Use of the Digital Object Identifier (DOI) is encouraged and that can be used to cite and link to electronic articles.
